ED HARRINGTON
GENERAL MANAGER

To Whom it May Concern,

This letter is my personal recommendation for System3inc. System3 has installed a new digital/hydraulic governor for our Moccasin Powerhouse Hydro Generator, unit 1 and is currently installing the governor for our MPH unit 2 Hydro Generator.

System3 has successfully completed the governor install on unit 1 within the construction schedule and their craftsmanship was exceptional.

System3 work ethics are well defined, their workmen are professionally trained and display excellence in their abilities for all field work.

System3 has displayed a great willingness to insure the installation is functionally complete and all field changes were flawlessly negotiated. A pure pleasure to work with at all levels.

I would like to highly recommend System3 for the installation of work in the Hydro Electric Industry. You may call me at any time to discuss (209) 989-2522

Thank You

Jerry Malone,
Resident Engineer
HHWP Construction Management
